Comments: To whom it may concern, I fully support the use of e-bikes in all forms with analog bikes. Anywhere a bike is legal should be legal for e-bikes as well. Clearly its been proven that e-bikes give those with special needs the ability to ride again. This freedom should never be taken away at some silly idea that these bikes are an issue with trail access. They are just another form of bicycle that does not change ability to coexist with the existing scenario. Thank you for your time.

Best

Eric J
