Last name: Wegner

Organization:

Title:

Comments: I support the use of E-bikes on all trails in the National Forest as it allows people with health issues like me access to trails I would not be able to access with out assistance. I set my E-bike at 15% assistance and I can ride like a normal person.I use a bell on my bike to warn hikers and other bikers where I am. I enjoy mountain biking and hope to continue riding into my 70s with the E-bike.

Dale Wegner
