First name: Senator Mark

Last name: Nye

Organization:

Title:

Comments: Subject to a satisfactory environmental findings, the undersigned forwards strong positive approvals for the Midas Gold application.

Nearly 100 years ago my father would visit Stibnite from his family home in Boise. I grew up hearing memorable stories from the area and Valley County. I have a nearly religious reverence for the area and went to summer camp in McCall starting in about 1948.

I mention the history because of having more experience and love of the area than some others associated with the Idaho Legislature.

I write this letter of support based on my understanding that the applicant will leave the area 'better than how he found it...'

Sincerely,

Senator Mark Nye

State of Idaho
