Comments: Hey there! I don't really see what all the fuss about these e bikes are. I have regular bikes, and I have an e bike on the way because they are just straight up too much fun. I don't really see why the class 3 e bikes are banned anywhere... I can be just as reckless on my regular bike! They're not damaging the trails any faster than me on my regular bike, they're not going to catch on fire, and I'm not going to cause any more danger to anyone than I would on my normal bike. I'm still going to go as fast as I can down hill. I just get to have fun going uphill now, since with my work I'm not able to get out on the trails every single day and do the proper training on conditioning some of these other guys get. It's a real bummer the e bikes have to sneak around, it's just like the prohibition. People are going to do it anyways, might as well make it legal everywhere with some fair laws to follow, and they'll be followed!
