Comments: e-bikes

Based on findings from a pilot program conducted during 2018, Jeffco Open Space adopted a permanent policy to allow electric bicycles (e-bikes) on Jeffco Open Space managed trails.

Class 1 e-bikes are allowed on natural surface trails within the parks

Jefferson County Colorado- Denver area, front range mountains.

>>>>>>>>>>>>>>>>>>

I have ridden mountain bikes (mtbs) for over 40 years throughout the West. I am fortunate to live in Jefferson County Colorado where e-bikes are now allowed on mtb trails. I purchased a class 1 e-bike because of this allowance. Yes the assistance is available. But you still have to pedal hard uphill and downhill there is no difference to a traditional mtb.

I believe Class 1 e bikes should be allowed on dirt trails where mountain bikes are allowed.
