Comments: The purposed project of the "Potts Creek Management Project" is a must needed. I have lived in this area now for 7 years permanently and have been part of this area my whole life and many of times I have heard comments from folks of the need for more burns and thinning. The purposed burning above the "Grade" is well needed. I live not far from this area and from hiking and hunting I have always notice many stands of dead overcrowded timber and very thick leaf litter which has the potential in my opinion for a very chaotic wildfire. The other areas of the plan I am not very familiar with so i cant speak for the need or remorse people my feel about it, However; I feel the project overall is very beneficial in the long term for the area.
