Comments: Because of the ever advancing tech. in our world what will the capability of these ebikes be in the years ahead. A motor-engine-etc is what it is. An electric auto- golf cart-motorcycle-atv-what have you. Non motorized was just what it means and changing this so (special) can is wrong. Allow one type on motorized access and we just might of do away with any and all restrictions. The present speed and capability of ebikes like any technology machine will only increase, to allow these on trails that were classified non-motorized is not in the best interest of the general activity or intent non means non no means no
