Title:

Comments: I support the Federal land management agencies facilitating and expanding access for e-bike use. Class 1 e-bikes (pedal assist) are pedal bicycles just like regular bicycles -you stop pedaling and the bike stops going forward. Class 1 e-bikes should have the same ability to access our federal lands as a regular pedal bike. Please do not include class 1 e-bikes as a motorized vehicle in your policy for bicycle access to our public lands.
