Comments: The links to the documents that include changes to be commented upon do not work as of 10/12/2020. The broken links make it difficult to know whether or not I'm addressing changes. One point that I want to emphasize is that E-Bike operators need to practice trail etiquette when encountering other trail users. It is especially important to yield the trail to pedestrians and equestrians.

Preserving non-motorized trails for non-motorized used if of utmost importance to this non-motorized trail user.
