Comments: Mid-Swan project

I have owned property and lived in the Swan Valley for 40 years. Your proposed project has a lack of transparency, a 15 year timeframe and limited public involvement on the project details which undermines NEPA. The public deserves to know what is going on in their lands and the impact to their wildlife, fish and water quality. I say NO more new roads, there is already too many roads. NO projects in the Mission Mountains Wilderness, a Wilderness area needs to be wild! Thank you for your time.
