First name: Liam

Last name: Buckham

Organization:

Title:

Comments: My name is Liam Buckham. I am a 3rd Grader at Highlands Elementary in Boise. I do not understand every part of the report that was made. But, I do know that there are lots of benefits from the project to the community and economy, and I think the company can mine the gold and other stuff safely and there are rules to make sure they do. The pictures of the old mining area show a big pit that the creek runs into. The photo of the new mine shows that being fixed. So, the company will clean up the old mess and create jobs and help the community. It will also get metal out of the ground that we can use and not have to buy from countries that don't mine safely. So, I think the project makes lots of sense and I don't understand why anyone would not like the benefits, especially if they like the environment and want the site to be clean. Those are my comments.

Liam
