Title:

Comments: Hello,

My name is Cory Bettinger and I am a science teacher in Portland Oregon. I have taken many kids to outdoor school over the years and I ask you to do whatever is in your power to protect large trees and old growth trees from logging. The short term financial benefit does not outweigh the long term benefit of having these trees as part of the ecosystem and land history of Eastern Oregon. Future generations deserve to have access to old growth and large trees. The ecosystems also benefit from them. Please protect them and do not allow Trumps short term vision and focus on money to destroy our forrest.

Thank you,

Cory Bettinger
