Comments: Thank you for considering my comments on e-bikes.

As an equestrian who enjoys the backcountry it is my request that the federal agencies do not include e-bikes on any trails that are already non-motorized. It is my opinion that they are a danger to hikers and equestrians. There are already a small number of trails that we can safely use that do not include motorized vehicles. E-bikes have a motor and can travel at unsafe speeds on single track trails. Thank you.
