Comments: I have ridden Dirt Bikes all of my adult life (I am 63 years old) and now have recently purchased 2 electric assisted mountain bikes. I can assure you that ebikes and dirt bikes are not at all the same. I would be terrified to operate my ebike at Rampart on a trail that allows dirtbikes, but i would feel totally comfortable with ebikes on trails that allow regular mountain bikes. they do not go down hill any faster and not a lot faster on the uphill. the main benefit is that they allow weaker and yes, older, riders to still participate on the trails. I would highly recommend that anyone involved in making the rules first go out and do some riding of ebikes and dirt bikes prior to making their decisions. I would hate to see all of the ebike riders be restricted from enjoying the many trails that colorado has to offer.

Thank You.
