Title:

Comments: I am a long-time cyclist and will likely purchase one of these so-called e-bikes for commuting in the near future. HOWEVER, I oppose most of the proposed E-bikes rules. I propose to be called e-mopeds or e-motorcycles. Since they have motors they should NOT be classified along with bikes. Also, no "e-bikes" should ever be allowed on any non-motorized single track trails.

Thanks,

Markus
