First name: George

Last name: Keller

Organization:

Title:

Comments: I believe class 1 and class 3 ebikes should be allowed on all trails open to regular Mountain bikes now. These class 1 and 3 ebikes allow people with physical restrictions to use the trails that would otherwise not be able to participate in Mountain biking activities. These class 1 and 3 ebikes allow people with limited time to use the trails and cover more distance for the enjoyment.
