Comments: I am an avid mountain biker that recently switched to an emtb because of my physical condition. I am fit but have a nagging knee injury. The ebike has allowed me to get back onto the trails and enjoy the outdoors. I'm frustrated with the lack of trails that allow emtbs and would like to see the options grow. I donate to the local mountain biking community through Evergreen, and pose no risk to other riders or damage to the trails. Please open more trails to emtb and realize that an emtb isn't a motorized vehicle, it's a bike.
