First name: George

Last name: Harper

Organization:

Title:

Comments: Class 2 and 3 E bikes should be considered motorized and only be allowed in areas/trails where motorized use is allowed.

Class 1 E bikes should be allowed on non-motorized trails, but due to their ability to travel at greater speeds, local jurisdictions should be allowed to close certain trails to class 1 E bikes for safety reasons.

Just as a bicycle, E Bikes should not be allowed in wilderness.
