Comments: I am a proponent of all people having access to wilderness settings. However, I appreciate that the Wood River Valley has chosen to classify e-bikes in the same category as motor vehicles. I support continuing this designation. Ultimately, ebikes and motorcycles will be indistinguishable, because motorcycles will develop greater battery power and may ultimately be just electric. In this regard, keeping e-bikes and motor vehicles in the same category makes sense. The CRUCIAL components are both signage and enforcement. We need to do a better job of making clear, both at the trail and online/maps, what is allowed. And when people violate the "No E-Bike" signage, warnings and then a ticket. Again, the emphasis is access for ALL users, but motors only in designated areas. Thanks!
