Comments: Hello,

My name is Sydney Schumacher. I currently live in White Salmon, Washington and work for an environmental engineering company doing river restoration work. As someone who is strong advocate for protecting the river, I would like to extend the comment period for the Stibnite Project. I would like to go through the Stibnite Gold Project Draft Environmental Impact Statement (DEIS) in further detail. Due to the length of the statement, COVID-19, and other personal obligations, I need more time to go through this document. Please extent the commenting period to the full 120 days.
