Comments: To whom it may concern,

I am writing with regard to the proposed "Stibnite Mine" In the headwaters of the South Fork of the Salmon River. As a born and raised Idahoan who has spent much time in the Frank Church wilderness, and along the Salmon River and its tributaries in pursuit of salmon, steelhead, and bull trout, I cannot more strongly condemn this mine. There is no situation where I view it to be a viable option. Zero.

Best regards,
