Comments: Dear Forest Service, I am very wary of allowing E-bikes on trails. The line between an ebike and a motorcycle is vague and will become more blurred with time. I think hikers like other users who proceed at a similar pace. Right now most e-bike only go 5-15 mph on trails, but these speeds will increase. Since you probably can't restrict all e-bikes, I would focus on selecting a small number of trails where they are allowed. Hikers who want to avoid them can avoid those trails.

Thank you for asking for my opinion.
