Title:

Comments: I share the concerns about truck traffic and noise around our beautiful Warm Lake with the scope of this proposed project. My family has had a cabin eat Warm Lake since 1948 so most of my outdoor memories are from this area.

I too am concerned, as is my son Bruce, about the disruption of our paradise for money. I can remember the old ore trucks from the original Stibnite mine rumbling down the Landmark grade into Warm Lake. I also am aware of the firefighters who were lost on wrecks at the base of that grade.

Therefore, I ask you to consider a negative vote on this whole project. Thankyou E. Fred Deal M.D.
