Comments: I have lived in Sedona for 20 years and have seen the growing use of USFS trails, and they are becoming more and more crowded with hikers and mtn bikers with less management. The difficulty of these trails requires more skill than other areas. The higher speeds that E-bikes can attain is not safe. IF there were SPECIFIC E-bike trails maybe the inevitable conflicts would not occur. As a cyclist i can discuss the dangers at length which at the top of the list would be the ABILITY of E-operators...they are mostly out of control. Who will be around to educate and manage this - YOU?
