Comments: I am in favor of allowing class 1 e-bikes on all trails where mountain bikes are allowed. This is very important to seniors like myself to be able to access places we have been going for years. I ride my class 1 e-bike in the National Park system weekly and would love to have access to the areas around it in the NFS where regular mountain bikes are allowed. I've been riding mountain bikes since 1984 and I would like to be able to continue to do so with friends and family for many years to come. I don't think this will be possible without using an e-bike.

I would also be in favor of allowing class 2 e-bikes and class 3 e-bikes on existing motorized trails and roads but not allowing them on trails where mountain bikes are currently allowed.
