Comments: I oppose e-bike use on trails that hikers and non-motorized bicycles are used upon.

E-bikes are most frequently used at much higher speeds on trails than non-motorized bicycles, and become a hazard to hikers and regular non-motorized cyclists. This disrupts enjoyment of outdoor areas to be required to be on the lookout for an electric bicycle.

I believe that e-bikes should be classified as any other motorized dirt bike or motorcycle is, and allowed in areas that offroad motorcycles are allowed.

Keep the trails for human powered vehicles.
