Title:
Comments: I am reading the Midas Gold DEIS, but apparently I am not a fast reader! I have over 15 hours into this document and have not even scratched the surface. The data is highly technical for a layman. I have to constantly go out to google and do searches to understand key items and definitions.

I am pleading with the Forest Service to extend the time for public comment. Sixty days is just not enough. The public deserves at least 180 days to read this document.

PLEASE EXTEND the time to make public comment.
