i am totallhy opposed to logging 2,323 acres. you are destroying this entire area and nature. the 330,000,000 americans who own this land verymuch oppose this logging and destrtuction of nature. you are taking away the trees that make the oxygen that they need to breathe. you and the amazon rainforest will shortly mean we have no oxygen left in the world. god gave us a decent world to live in.your agency should stop destroying it piece by pieces. this proposal to log is obscene. this comment is for thepublic record. please receipt.
