Comments: My husband and I have visited the stibnite many times over the past 35 years Sometime we would go to yellow Pine for the Harmonica Festival some times just to camp a Big Creek or to go hunting at Horse Heaven.We are conservative environmentalist and we would not support anything that we thought would diminish the environment of this area.We are confident that Midas gold will leave the site better than they found it and will provide many much needed benefits to the local communities of Donnelly, Cascade and McCall.Thanks for your sincere consideration of this proposal.
