Comments: I am writing to tell you that you should not let the companies from Canada mine at the Salmon! But before we continue here is a little about me I am 12 years old and in middle school this summer I had a magical experience on the Salmon river and i would like to take my kinds and my friends there. Now back to business please don't destroy the river and wild life that goes threw and around it. And please have a good rest of your day.
