Comments: Absolutely a big NO to e-bike access. The potential for abuse is too great. People with e-bikes will naturally "modify" them. This will lead to the deterioration of the trails that many of us put in countless hours building and maintaining. Groups are already (wrongly so) entirely apposed to mountain bike usage on federal land, and this will lead to more unnecessary contention. The unfortunate truth like many things in life is the few will ruin it for the rest of us.
