Title:

Comments: I support e-mountain biking of class 1 e-bikes on most non-motorized trails. Trails that see heavy use by families and beginners should see restricted e-bike use - limited to use of riding class 1 e-bikes by physically disabled people or people over age of 55. E-bike specific beginner trails should be created.

I support e-mountain biking of class 2 and 3 e-bikes on motorized trails ONLY, not on trails that are currently non-motorized.
