Comments: As a frequent trail user for hiking, I am concerned about the growth of e-bike use on multiuse trails. I think that if we had trails designated for mountain bike use, e-bikes may be suitable for these. We should separate mountain bike and hiking uses in some high traffic areas such as the Snow King trails. Some trails already have so much mountain bike use they are no longer practical options for hikers during busier after work and weekend hours (Ferrins & Sidewalk). I would also like to suggest that despite right of way going to the biker, in most cases, hikers yield due to their higher mobility.
