Comments: Dear Ms Jackson,

Our firm ,on behalf of our clients, has been a long term shareholder of Midas Gold .

This letter is to support Midas Gold's efforts to gain a permit to mine the Stibnite Gold project.

We have been impressed by how thorough the management of Midas has been as they have navigated the permitting process.

We believe the successful development of the Stibnite project will contribute to the community in several ways including rehabilitating an old mine site and providing employment opportunities. Our clients , many of whom are retirees , will also share in the benefits.

Yours Sincerely ,

Chris Mancini and Caesar Bryan

Analyst and portfolio manager , Gabelli Asset Management.
