Comments: Hi. As an avid biker/skier/ hiker/hunter all around general outdoors enthusiast for my entire life, I fully support any way to get people out into nature. Ebikes are a great way to make this happen. There will always be people with little or no respect for others/property/nature. Banning ebikes will not change them. But it could have a derogatory effect on many other people's lives and health.

Ebikes are here to stay. Making them illegal only leads to more confrontation.

Ebikes should be allowed where all other bikes are.
