Title:

Comments: I strongly oppose this proposition for three main reasons:

- 1) e-bikes allow people without proper trail knowledge and without adequate physical ability access to trails that will inevitably result in more harm to humans, dogs, wildlife, and nature.
- 2) tax dollars should not be spent on creating new e-bike designations and opening more trails to e-bikes because they already have access to 60,000 miles of trails and roads
- 3) I'm an avid cyclist and I respect e-bikes for their benefits but they do not belong on singletracks that are also used by pedestrians, children, pets, and wildlife.
