Comments: I am an avid outdoor user both hiking and horseback riding. It is already hard enough to share the trails. I believe E-bikes should not be allowed on forest service land for a multitude of reasons - 1. Speeds that can be achieved 2. overcrowding 3. Impact on environment and surrounding species of both plant and wildlife. As a horseback rider, it is often difficult enough to find places to safely ride. E-bikes add an increasing and unnecessary risk to other trail users.
