First name: Michael

Last name: Lamarca

Organization:

Title:

Comments: Don't do it. Ebike riders don't care. In general, they use the handicap excuse as a crutch to be able to ride their own ebikes as an able bodied person. Most of the ones I encounter have some sort of motorcycle or MX background, and are trying to recreate that experience on a trail where motorized vehicles are prohibited. Keep it 100% human powered.
