Comments: I am opposed to the Stibnite Gold Project due to its unforeseeable impacts on the wildlife (ungulates and fish in particular) that I pursue in Idaho. I do not believe the mitigation measures outlined in the EIS will capture the full and long term negative impacts. There are already a ton of stressors from unclean water and illegal dumping to harsh winters and predators that wildlife must deal with. I don't see a point to leeching the ground for gold, that brings very little value to society other than jewelry.
