Comments: I'm a 73 year old man who has hunted and fished all my life. 25-15 years ago I used my (regular) mountain bike to hunt behind gated roads legally. Time has caught up with me, prostate cancer, non-Hodgkin lymphoma, heart problems, and bad back and legs from being a heavy equipment mechanic for 55 years. My e-bike has let me do things I otherwise couldn't. All it does is help me out of the "holes " I couldn't otherwise get in and out of. They don't pose a threat to erosion. They aren't going to help destroy the big game herds(the wolves have done that). My e-bike just lets me enjoy the outdoors! Allow them behind the gates, anywhere a non-assisted bike is legal. Thank you.
