Title:

Comments: NO!!!! I serve on our counties Living with Wildlife Board and this will definitely negatively impact ALL wildlife. In another way, the noise will destroy what so many of us seek in the wilderness - a place of quiet, of only natural sounds.

Motorized bikes travel further and faster into the backcountry. Traveling up to 20-30 mph, e-bikes disrupt wildlife, impact habitat, and ruin the small portion of public lands that are quietly free from motorized vehicles.

Allowing e-bikes will increase trail use and the likelihood of reckless off-trail travel, further impacting ecosystems and causing erosion.
