First name: Karon

Last name: Johnson

Organization: Formerly US Dept. of Justice

Title:

Comments: Isn't it enough that we have millions of acres allowing off-trail motorized vehicles, electronic bikes, and all the other devices that allow people to go faster and tear up more of the landscape? Why must every inch of our country be devoted to people's recreation? Why not leave something for the natural world? I'm opposed to any provision that allows e-bikes to be used in any areas of our forest services.
