Comments: I oppose the Forest Service's proposed rule to open up my National Forest lands to additional e-bike use for the following reasons:

*E-bikes must continue to be treated as motor vehicles, not bicycles. New e-bikes are being developed now that will drive up to 55 mph. E-bikes must travel only where motor vehicles are allowed.

*This proposed rule suggests likely environmental impacts that should be fully evaluated through an environmental impact statement (EIS) under the National Environmental Policy Act (NEPA).

*The proposed rule appears to set up conflicts with the Forest Service's Travel Management Rule (36 CFR 212 et seq).

*Because of their speed and quiet nature, e-bikes can travel much farther into the backcountry, and startle and disturb wildlife over far greater distances. E-bikes also conflict with other nonmotorized trail users like hikers, horseback riders, and bicyclists.

Please withdraw this proposal.
