First name: Elizabeth

Last name: Osborne

Organization:

Title:

Comments: Please withdraw the e-bike rule. Electronic bikes can go up to 55 MPH. This will likely terrify and endanger wildlife, cause harm to plants life and expose vast areas pf protected lands to human pollution and harm. We need to protect wild places and sacred spaces from abuse caused by members of our species in order to maintain eco balances that are critical to maintaining life (including human) on this planet.
