Title:

Comments: I am opposed to any rule that would allow the use of e-bikes in any of our forests on federal land. These bikes aren't bikes at all but a motorized vehicle. I've seen riders in our area go extremely fast while not obeying any bicycle rules of the road. In addition they are very noisy which diminishes the experience of being out in nature. Our forests and parks weren't intended to include noisy devices such as "ATV's, snowmobiles and certainly not e-bikes. Leave these natural places natural!
