First name: Nils

Last name: Osterberg

Organization:

Title:

Comments: Please limit e bike use in the backcountry. These vehicles can travel farther and faster than hikers or people on horseback. We don't need more usage of evilest in Wilderness, Roadless areas and backcountry, because they disturb the untrammeled character of these areas. Ebikes and other Vehicles already have access to the vast majority of National Forest lands. They don't need any more.

Thank you.
