First name: Marianne

Last name: Tuchscherer

Organization:

Title:

Comments: It is difficult to believe you would put our wildlife and fragile wilderness in jeopardy, by allowing any motorized vehicles into our protected lands. Soon, we will see the environment polluted with the e bikes and scooters. Their batteries have a short life, so they will be strewn around the forest and desert, just like in the cities.

Our delicate ecosystem cannot tolerate any more pollution!

Marianna Tuchscherer
