First name: Carol

Last name: McDonnell

Organization:

Title:

Comments: There is already so much noise and the commotion of speeding vehicles all around us. Please leave us places to go where we aren't bombarded with speeding ebikes. Our wildlife has been pushed out of so much of their habitats and need their own spaces devoid of human interference of noise and commotion also. Nature appreciation by walkers and non-electric bikers is not the same as recreational sport of ebikes speeding along. It's already difficult to find cross-country ski trails that haven't been torn up by snowmobiles and sport vehicles - please leave us our forest park areas unimpacted by ebikes (and all other electric or gas-powered vehicles).
