Comments: No to electric bikes on MY public lands.

I don't even like mountain bikes on the trails. They almost run you over because they go so fast and you can't hear them coming. So no hell no to electric bikes! What's next Harley Davidson's?!?! Our wild life and forrests are struggling enough to survive, without ant added burdens.

While you're at it dismantle the BLM, they are in the pockets of the cattle ranchers. I'm a vegetarian and hate slaughter houses. Meat is murder!

Do your job and protect MY public lands.
