Comments: 10/21/2020 I oppose the proposal to allow e-bikes into National Forests and Parks because they pose a threat to other people using the same pathways. I personally have not heard whether an e-bike is quiet therefore no pre-warning that the e-bike is coming up behind you or the driver expects you to jump off the trail out of his way with no warning. It does not make sense to disturb the beauty, peace and wildlife of the National Forests by allowing an e-bike to whizz about. What will come next motorcycles, snowmobiles, scooters, etc?
